

COMING SOON: New Event Reporting System!

Providence has selected a new and improved event reporting system, the High Reliability Platform (HRP) by Press Ganey. HRP will replace our current reporting system, Datix, and propel us further in our High Reliability Organization (HRO) journey.

Sept 8th: A 15-minute education course in HealthStream/RISE will be assigned to all caregivers. Core leaders will be required to take an additional brief course.

Sept 30th: Deadline to move Datix events to leader sign off! HealthStream should be completed by this date.

Oct. 3rd: **HRP GO LIVE!**

Nov 30th: We will no longer have access to Datix.

Click [HERE](#) to visit the HRP SharePoint site for continual updates!

Other new features with HRP include:

- Single sign-on capability
- Seamless access to the new system using icons already in place for Datix
- Simplified reporting forms
- Advanced data-capture and curation capabilities
- Ability for the reporter to check status of submission
- Ability to close loop communication with reporter
