

ARTICLE XIX – RESOURCE NURSES

Resource nurse will be hired into a unit and shift, and will report to the unit manager.

1. Resource nurses must submit availability for twenty-four (24) hours per four (4)-week scheduling period, pursuant to the process outlined below.
 - a. The twenty-four (24) hours may include any open shifts of between four (4) and twelve (12) hours in length, at the nurse's discretion.
 - b. One (1) of those shifts must be on a weekend.
 - c. At least two (2) of the shifts (eight (8) or twelve (12) hour shifts as defined by the unit's core schedule) in a calendar year will be on a holiday (which will be rotated between winter (New Year's Day, Thanksgiving Day, or Christmas Day) and summer holidays (Memorial Day, Fourth of July, or Labor Day)). Holidays worked as the result of a nurse trading a winter holiday for a winter holiday with another nurse and/or trading a summer holiday for a summer holiday with another nurse, with approval of the unit manager, will satisfy the holiday requirement. In addition, if a Resource nurse agrees to work a holiday shift for another nurse (outside of the trades described above) with the approval of the unit manager, that holiday will satisfy the holiday requirement.

 - c. From among the holes (or gaps or open shifts) in the schedule, a Resource nurse will indicate a minimum of twenty-four (24) hours for which he/she is available.
 - d. If a unit manager/scheduler is unable to identify a list of holes (or gaps or open shifts) in the schedule, each Resource nurse will still submit at least twenty-four (24) hours for which he/she is available.
 - e. The Medical Center will assign shifts to Resource nurses beginning with the first nurse who submitted his/her availability and proceeding in order of the date and time that the nurse submitted his/her availability.
