

Masks required in patient-care areas

Providence
SWEDISH

ATTENTION: PATIENTS, VISITORS AND CAREGIVERS

Please wear a mask during check-in and when you are called back to your appointment until you leave.

Masks are REQUIRED for all care interactions:

- Front desks/check-in
- Once you're called back for your appointment
- During any direct patient care
- Waiting rooms for some departments

Why? Together with other regional health systems, we are helping prevent the spread of infection by masking when either COVID-19, influenza or RSV reach Department of Health thresholds.

It remains STRONGLY RECOMMENDED to use a mask and physical distancing even where not required throughout our health care facilities.

Thank you for helping us keep each other safe.
